Proposals to amend the Code — in press [59(6_203-338fastTrack, 27 pp.)]

COMMENTARY 12: Be certain to read the procedures on page 1, as some items have changed. The first paragraph lists the url to the TAXON/INGENTA website where all nomenclatural proposals are available for free download; remember to check it frequently. Also, guest and member comments now appear together in chronological order, making it easier to find a comment based on the date code. All Art. 59-related proposals are presented together to make the voting process easier. Contents are as follows
